

West Nile Virus — South Dakota

July 8, 2019

Human West Nile Virus (WNV) reported to SD Department of Health (SD-DOH)

Human cases: 1 (30-39 year old age group)

Hospitalized: 0

Deaths: 0

Counties

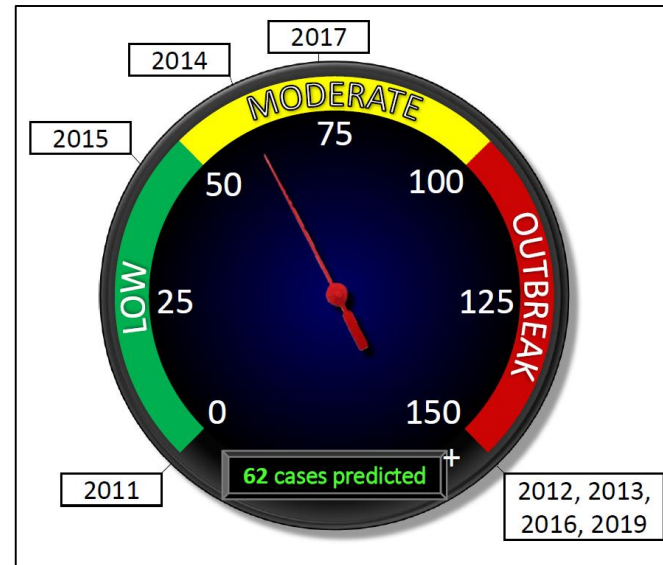

Human cases: Turner (1)

Viremic blood donors: None

Positive mosquito detections: Brown

What can you do to prevent WNV?

- Apply mosquito repellents to clothes and exposed skin
- Wear pants and long sleeves when outdoors
- Limit time outdoors from dusk to dawn
- Get rid of standing water, where mosquitoes can breed
- Support local mosquito control efforts
